TITLE:

"METHOD AND ARRANGEMENT FOR REDUCING THE PUMP

LIGHT AT THE EXIT OF A FIBER LASER"

Assistant Commissioner for Patents,

Washington, D. C. 20231

SIR:

In response to the Office Action of September 6, 2001, the following is submitted:

## **IN THE SPECIFICATION:**

Page 2, after line 17, add the following additional paragraph:

--Exemplary of a laser diode pumped fiber laser with a pump cavity in the prior art is U.

S. Patent 4,829,529. In that patent, the fiber laser is provided having a single mode fiber core of laser material pumped by a high power coherent laser diode source wherein a multi-mode fiber is provided around the single mode core to define a pump cavity. The cladding or sheet 16 extends all the way to the end of the fiber.--
